

Curriculum Vitae

Assaf Naor

Address: Princeton University
Department of Mathematics
Fine Hall 1005
Washington Road
Princeton, NJ 08544-1000
USA

Telephone number: +1 609-258-4198

Fax number: +1 609-258-1367

Electronic mail: naor@math.princeton.edu

Web site: <http://web.math.princeton.edu/~naor/>

Personal Data:

Date of Birth: May 7, 1975.

Citizenship: USA, Israel, Czech Republic.

Employment:

- **2002–2004:** Post-doctoral Researcher, Theory Group, Microsoft Research.
- **2004–2007:** Permanent Member, Theory Group, Microsoft Research.
- **2005–2007:** Affiliate Assistant Professor of Mathematics, University of Washington.
- **2006–2009:** Associate Professor of Mathematics, Courant Institute of Mathematical Sciences, New York University (on leave Fall 2006).
- **2008–2015:** Associated faculty member in computer science, Courant Institute of Mathematical Sciences, New York University (on leave in the academic year 2014–2015).
- **2009–2015:** Professor of Mathematics, Courant Institute of Mathematical Sciences, New York University (on leave in the academic year 2014–2015).
- **2014–present:** Professor of Mathematics, Princeton University.
- **2014–present:** Associated Faculty, The Program in Applied and Computational Mathematics (PACM), Princeton University.
- **2016 Fall semester:** Henry Burchard Fine Professor of Mathematics, Princeton University.
- **2017–2018:** Member, Institute for Advanced Study.
- **2020 Spring semester:** Henry Burchard Fine Professor of Mathematics, Princeton University.

Education:

- **1993–1996:** Studies for a B.Sc. degree in Mathematics at the Hebrew University in Jerusalem. Graduated *Summa Cum Laude* in 1996.
- **1996–1998:** Studies for an M.Sc. degree in Mathematics at the Hebrew University in Jerusalem. M.Sc. thesis: “Geometric Problems in Non-Linear Functional Analysis,” prepared under the supervision of Joram Lindenstrauss. Graduated *Summa Cum Laude* in 1998.
- **1998–2002:** Studies for a Ph.D. degree at the Hebrew University in Jerusalem, under the supervision of Joram Lindenstrauss. Thesis title: “Linear and Non-Linear Geometric Problems in Banach Spaces.”

Research Interests:

- Analysis,
- Probability,
- Quantitative geometry,
- Linear and non-linear geometric Banach space theory,
- Structure theory of metric spaces,
- Applications of the above to theoretical computer science, combinatorics and mathematical physics.

Professional Activities:

- **Research centers:**
 - Director of the Algorithms and Geometry (A&G) think tank at the Simons Foundation (2013–2021).
- **Editorial:**
 - Current:
 - * *Algorithmica*, editor (2023–present).
 - * *Analysis and Geometry in Metric Spaces*, editor (2016–present).
 - * *Annals of Mathematics*, editor (2020–present).
 - * *Annals of Mathematics Studies* (Princeton University Press research monograph series), editor (2019–present).
 - * *Annales de l’institut Fourier*, editor (2019–present).
 - * *International Mathematics Research Notices (IMRN)*, editor (2008–present).
 - * *Journal of Topology and Analysis (JTA)*, editor (2007–present).

- * *Theory of Computing (TOC)*, editor (2005–present).
- Past:
 - * *Canadian Journal of Mathematics*, associate editor (2014–2019).
 - * *Journal of the American Mathematical Society (JAMS)*:
 - Editor (2014–2019).
 - Associate editor (2007–2014).
 - * *Mathematika*, editor (2011–2019).
 - * *Probability Theory and Related Fields (PTRF)*, editor (2012–2015).
 - * Program committee member of the following computer science conferences:
 - *International Workshop on Randomization and Computation (RANDOM) 2014*.
 - *Symposium on the Theory of Computing (STOC) 2010*.
 - *Symposium on Discrete Algorithms (SODA) 2007*.
 - *Symposium on the Theory of Computing (STOC) 2006*.
 - * *Proceedings of the National Academy of Sciences (PNAS)*, editor of Special Feature on Quantitative Geometry.
 - * *Israel Journal of Mathematics*, editor of volume in the memory of Joram Lindenstrauss.

• **Committees and advisory boards:**

- Presidential nominee on the Corporation Visiting Committee for Mathematics, MIT (2022–present).
- Head of the committee of judges for the 2022 Erdős prize.
- Member of the the following ICM speaker selection panels:
 - * ICM 2022; section on “Analysis.”
 - * ICM 2014; section on “Analysis and Applications.”
- Member of the Selection Committee for the Ciprian Foias Prize in Operator Theory (2021–2024).
- Member of the Selection Committee for the 2020 Bôcher Prize.
- Member of the Scientific Board of the Prague Summer Schools on Discrete Mathematics (2015–2020).
- Member of the speaker selection committee of the Current Events Bulletin session at the Joint Mathematics Meetings of 2016, 2017.
- Member of the Scientific Advisory Council for the Blavatnik National Awards (award years 2015–present).
- Member of the Scientific Nominating Committee of the Fields Institute (2014–2017).
- Member of the Scientific Board of the American Institute of Mathematics (AIM) (2013–present).
- Member of the Scientific Advisory Panel of the Fields Institute (2013–2017).

- Member of the Science Advisory Board of the Institute for Pure and Applied Mathematics (IPAM) (2008–2020).
- Judge of the 2014 Blavatnik National Awards.
- Member of the nominating committee for the IPAM scientific advisory board (2011, 2013, 2015).
- Member of the committee of the Janos Bolyai International Mathematical Prize, Hungarian Academy of Sciences (2010, 2015).
- Delegate (Israel) to the General Assembly of the International Mathematical Union, Bangalore, India, 2010.
- Served on NSF grant panels (multiple years).
- Served on a review panel for the Simons Symposia, Simons Foundation, 2011
- Served on doctoral thesis committees of students in Princeton University, NYU, EPFL Lausanne, ETH Zürich (multiple years).
- Served on habilitation committees of faculty members at École Normale Supérieure de Lyon, Université Paris Diderot (multiple years).
- Served as preliminary exam advisor for PACM, Princeton University.
- Served on the following committees at Princeton University:
 - * Mathematics Department Strategic Planning (senior hiring) Committee (2014–2015, 2015–2016, 2016–2017, 2017–2018, 2018–2019, 2019–2020); Chair of the Princeton Mathematics Department Strategic Planning Committee in academic years 2017–2018 and 2018–2019.
 - * Mathematics Department Colloquium Committee (chair; 2019–2020, 2020–2021).
 - * Mathematics Department committee on the 215–218 courses (2019–2020).
 - * Mathematics Department Graduate Admissions Committee (2016–2017).
 - * Mathematics Department Junior Hiring Committee (2015–2016, 2020–2021, 2022–2023).
 - * Mathematics Department Furniture Committee (2016–2017).
 - * Several tenure and promotion committees at the Mathematics and Computer Science Departments (2016–present).
 - * Senior thesis committees of Kubrat Danailov (2015), Thomas Reeves (2016).
- Served on the following committees at the Courant Institute:
 - * Planning and Development Committee (2007–2008)
 - * Colloquium Committee (2008–2009).
 - * Fellowships Committee (2008–2009, 2011–2012)
 - * Appointments Committee (2013–2014).

• **Organization of special semesters, conferences and seminars:**

- Conference on “Metric Embeddings,” at the American Institute of Mathematics and the Merkin Center for Pure and Applied Mathematics, Caltech, July 7-11, 2025.

- Trimester program on “Synergies between modern probability, geometric analysis and stochastic geometry” at The Hausdorff Research Institute for Mathematics, winter 2024.
 - * Conference organization within this semester:
 - Winter School on “Geometry and Probability,” January 22–26, 2024.
 - Thematic week on “Interaction between convexity and discrete structures,” February 5 – 9, 2024.
 - Workshop on “High dimensional phenomena: geometric and probabilistic aspects ,” March 11–15, 2024.
- The 37th Annual Geometry Festival, Princeton University, April 28–30, 2023.
- Trimester program on “The Interplay between High-Dimensional Geometry and Probability” at The Hausdorff Research Institute for Mathematics, winter 2021.
 - * Conference organization within this semester:
 - “Winter School on The Interplay between High-Dimensional Geometry and Probability,” January 11–15, 2021.
 - “Workshop on High dimensional measures: geometric and probabilistic aspects,” March 22–26, 2021.
- Sixth annual conference of the Algorithms and Geometry (A&G) think tank at the Simons Foundation, May 15, 2020.
- Workshop on “Beyond spectral gaps” at the Clay Mathematics Institute, September 30 to October 3, 2019.
- Fifth annual conference of the Algorithms and Geometry (A&G) think tank at the Simons Foundation, May 17, 2019.
- Fourth annual conference of the Algorithms and Geometry (A&G) think tank at the Simons Foundation, May 18, 2018.
- Scientific Committee of the conference “Non Linear Functional Analysis” at Centre International de Rencontres Mathématiques (CIRM), Luminy France, March 5-9, 2018.
- Semester program on “Quantitative Linear Algebra” at the Institute for Pure and Applied Mathematics (IPAM), spring 2018.
 - * Conference organization within this semester:
 - “Approximation Properties in Operator Algebras and Ergodic Theory,” April 30–May 5, 2018.
- Conference on “Geometric Functional Analysis and Applications” at MSRI, November 13–17, 2017.
- Conference on “Chaining Methods and their Applications to Computer Science” at Harvard University, June 22–23, 2016.
- Conference on “Analysis and Beyond: Celebrating Jean Bourgain’s work and its impact” at the Institute for Advanced Study, May 21–24, 2016.
- Third Annual Conference of the Algorithms and Geometry (A&G) think tank at the Simons Foundation, May 19, 2017.

- Second Annual Conference of the Algorithms and Geometry (A&G) think tank at the Simons Foundation, May 13, 2016.
 - First Annual Conference of the Algorithms and Geometry (A&G) think tank at the Simons Foundation, May 15, 2015.
 - Courant Institute Theory of Computing Seminar (2007–2014). Seminar web-site: http://cs.nyu.edu/web/Calendar/colloquium/cs_theory_seminar/.
 - Semester program on “Quantitative Geometry” at MSRI, fall 2011.
 - * Conference organization within this semester:
 - “Connections for Women in Quantitative Geometry,” August 18–19, 2011.
 - “Introductory Workshop on Quantitative Geometry,” August 22–26, 2011.
 - “Probabilistic Reasoning in Quantitative Geometry,” September 19–23, 2011.
 - “Embedding Problems in Banach Spaces and Group Theory,” October 17–21, 2011.
 - “Quantitative Geometry in Computer Science,” December 5–9, 2011.
 - Semester program on “Discrete Analysis” at the Newton Institute, winter 2011.
 - * Conference organization within this semester:
 - “Embeddings,” January 10–14, 2011.
 - Workshop on “Probability in Asymptotic Geometry,” Texas A&M University, July 20–24, 2009.
 - Workshop on “Quantitative and Computational Aspects of Metric Geometry” at IPAM, January 2009.
 - Workshop on “Geometry and Algorithms” at the International Centre for Mathematical Sciences in Edinburgh, April 16–21, 2007.
 - Workshop on “Algorithmic Convex Geometry” at the American Institute of Mathematics, November 2007.
 - Special session on “Applications of the Arora-Rao-Vazirani Algorithm” at INFORMS 2006.
 - Workshop on Metric Geometry and Geometric Embeddings of Discrete Metric Spaces at Texas A&M University, July 17–22, 2006.
- Member and founding Principle Investigator of the Center for Computational Intractability (CCI) at Princeton University (2008–2013).
 - **Membership in professional societies:**
 - Faculty Fellow at Rockefeller College, Princeton University.
 - New York Academy of Sciences (NYAS).
 - American Mathematical Society (AMS).
 - European Mathematical Society (EMS).
 - Society for Industrial and Applied Mathematics (SIAM).
 - Association for Computing Machinery (ACM).

- ACM Special Interest Group on Algorithms and Computation Theory (SIGACT).

- **Refereeing:**

- Referee of research articles in the following journals (multiple times): Israel Journal of Mathematics, Geometric and Functional Analysis, Proceedings of the American Mathematical Society, Journal of Functional Analysis, Mathematiche Annalen, Random Structures and Algorithms, Annals of Probability, Journal of the Association of Computing Machinery, Advances in Mathematics, Arkiv der Mathematik, Journal of the American Mathematical Society, Combinatorica, ACM Transactions on Algorithms, International Mathematics Research Notices, SIAM Journal on Computing, Duke Mathematical Journal, London Mathematical Society, American Mathematics Monthly, Inventiones Mathematicae, Communications in Pure and Applied Mathematics, Discrete and Computational Geometry, Commentarii Mathematici Helvetici, Experimental Mathematics, Acta Mathematica, Communications in Pure and Applied Mathematics, American Journal of Mathematics, Groups, Geometry and Dynamics, Annals of Mathematics Studies, Mathematische Zeitschrift, Comptes Rendus Mathématique, Revista Matemática Iberoamericana, Selecta Mathematica, Journal für die Reine und Angewandte Mathematik, Theory of Computing, Pacific Journal of Mathematics, Mathematical Proceedings of the Cambridge Philosophical Society, Transactions of the American Mathematical Society, Analysis and Geometry in Metric Spaces, Journal of the European Mathematical Society, ACM Transactions on Computation Theory, IEEE Transactions on Information Theory, Theoretical Computer Science, Geometriae Dedicata, Ergodic Theory and Dynamical Systems, Mathematical Research Letters, Journal of Combinatorial Theory Series B, Annals of Mathematics, Geometry & Topology, European Journal of Combinatorics, Discrete Mathematics, Journal of Differential Geometry, Discrete Analysis, Forum of Mathematics Sigma, Journal d'Analyse Mathématique, Discrete Applied Mathematics, Algebra & Number Theory, Mediterranean Journal of Mathematics, Notices of the AMS, Publications mathématiques de l'IHÉS, Analysis & PDE, Forum of Mathematics: Pi, Compositio Mathematica, Japanese Journal of Mathematics, Annales scientifiques de l'École normale supérieure, AMS University Lecture Series.
- Referee of research articles in the following conferences (multiple years): STOC, FOCS, RANDOM, SODA, CCC, SoCG, STACS, APPROX, ICALP, ESA.
- Reviewer of several grant proposals for the following agencies (multiple proposal, multiple years): National Science Foundation (NSF), European Research Council (ERC), Israel Science Foundation (ISF), National Security Agency (NSA), Air Force Office of Scientific Research (AFOSR), German-Israeli Foundation for Scientific Research and Development (GIF), Swiss National Science Foundation (SNSF), Czech Science Foundation (GAČR), Deutsche Forschungsgemeinschaft (German Research Foundation; DFG), China Israel Research Program (CIRP), Ministry of Education and Science of the Russian Federation, US–Israel Binational Science Foundation (BSF), French National Research Agency (ANR), National Science Centre Poland.
- Reviewer of proposals to the following research institutes: Isaac Newton Institute, Banff International Research Station, Erwin Schrödinger International Institute for Mathematics and Physics, Hausdorff Research Institute for Mathematics.

Honors:

- Awards:

- Best Paper Award of the International Congress of Chinese Mathematicians, 2024.
- Simons Investigator, 2021.
- Ostrowski Prize, 2019.
- Nemmers Prize in Mathematics, 2018.
- Fellow of the American Mathematical Society, 2012.
- Blavatnik award, 2012.
- Pazy Memorial Research Award, 2011.
- Bôcher Memorial Prize, 2011.
- Salem Prize, 2008.
- Packard Fellowship, 2008.
- European Mathematical Society Prize, 2008.
- Bergmann Memorial Award, 2007.
- The Clore Scholarship, 2000.
- The Klein prize for excellence in teaching (Hebrew University), 1998.
- Israeli parliament (Knesset) award for academic studies, 1998.
- The Intel prize for B.Sc. students for the academic year, 1996.
- Hebrew University Rector Prize (1995 and 1997)
- Hebrew University Dean of Natural Sciences Faculty Award (1998).

- Special lectures:

- Simons Lectures in Mathematics, Stony Brook University, May 2024.
- Keynote lecture, Netherlands Mathematical Congress (NMC), April 2021.
- FIM Lecture, ETH Zürich, February 2020.
- Dvoretzky Lectures, Hebrew University, 2019.
- Chern Lectures, U.C. Berkeley, 2019.
- Plenary lecture, International Congress of Mathematicians, 2018.
- Connecticut Valley Colloquium Lectures, University of Massachusetts Amherst, 2016.
- Blyth Lectures, University of Toronto, 2016.
- Wolfe Lecture in Mathematics, Rice University, 2014.
- Minerva Distinguished Lecture Series in Mathematics, Princeton University, 2013.
- Frontiers in Mathematics Lecture Series, Texas A&M University, 2013.
- Main speaker, Rivière-Fabes Symposium in Analysis and PDE, 2013.
- Plenary speaker, annual meeting of the Australian Mathematical Society, 2012.

- Distinguished Lecture Series, Fields Institute, 2012.
- Takagi Lectures, Mathematical Society of Japan, 2012.
- Invited address, National AMS Meeting, 2012.
- Zygmund-Calderón Lectures, University of Chicago, 2011.
- Seymour Sherman Memorial Lecture, University of Indiana, 2011.
- Séminaire Bourbaki, Paris, 2011.
- Invited Speaker, International Congress of Mathematicians, Hyderabad, 2010.
- Prize lecture, European Congress of Mathematics, 2008.
- Plenary talk, annual meeting of the Israel Mathematics Union, 2008.
- Plenary talk, Clay Research Conference, Cambridge MA, 2008.
- Plenary address, Joint meeting of the American Mathematical Society and the New Zealand Mathematical Society, Wellington New Zealand, 2007.
- Norbert Wiener Lectures, MIT, 2007.
- Kuwait Foundation Lecture, Cambridge University, 2007.
- Plenary talk, Southeast Section Meeting of the American Mathematical Society, 2005.

• **Special visiting positions:**

- von Neumann Fellow, Institute for Advanced Study, 2017–2018.
- Visiting Fellow, Princeton University, 2013.
- Poste Rouge du CNRS, Université de Paris Est Marne-la-Vallée, 2012.
- Simons Visiting Professor, MSRI, 2011.
- Professeur invité, École normale supérieure, Paris, 2011.
- Weston Visiting Professorship, Weizmann Institute, 2009.
- Distinguished visitor, University of California at San Diego, 2008.

• **Funding:**

- NSF grant DMS-2054875, 2021–present.
- Simons Investigator award, 2021–present.
- BSF grant 2018223, 2019–present.
- Simons collaboration grant, 2014–2021.
- Simons Fellowship, 2012–2013.
- BSF grant 2010021, 2011–2015.
- Packard Fellowship, 2008–2013.
- NSF “Expeditions in Computing Grant” (CCF-0832795), 2008–2013.
- BSF grant 2006009, 2007–2011.
- NSF grant CCF-0635078, 2006–2009.
- European Union Marie Curie fellowship, 2001.

Teaching Experience:

- Courses taught at Princeton University:
 - “Topics in Geometry (MAT 559): Lipschitz Extension, Reverse Isoperimetry and Rounding” (spring 2024).
 - “Topics in Geometry (MAT 559): Local theory of normed and metric spaces” (spring 2021).
 - “Analysis II: Complex Analysis” (MAT 335; fall 2018, fall 2019, fall 2020, fall 2023).
 - “Topics in Analysis: Metric Dimension Reduction” (MAT 529, spring 2019).
 - “Advanced Topics in Analysis: Metric Embeddings and Geometric Inequalities” (MAT 529; spring 2016).
 - “Honors Analysis in a Single Variable” (MAT 215; fall 2015).
 - “Advanced Topics in Analysis: Embeddings and Extensions” (MAT 529; spring 2015).
- Courses taught at the Courant Institute of Mathematical Sciences:
 - “Topics in geometric nonlinear functional analysis” (spring 2014).
 - “Embeddings of discrete spaces” (spring 2012).
 - “Analysis 1” (spring 2011).
 - “Topics in the local theory of Banach spaces” (fall 2010).
 - “Algebra 1” (fall 2008, fall 2009, spring 2012, fall 2013).
 - “Concentration of measure” (fall 2008).
 - “The local theory of metric spaces and its algorithmic applications” (spring 2008).
 - “The local theory of Banach spaces” (fall 2007).
- Worked as a teaching assistant at the Hebrew University in Jerusalem in the academic years 1996-1997, 1997-1998, 1998-1999, 1999-2000, 2001-2002. This work involved teaching frontal recitation classes, and grading homework and exams. The courses taught were:
 - First year linear algebra (linear algebra 1 and linear algebra 2).
 - Differential and integral calculus for economics students.
 - Complex function theory (for third year students).
 - Probability 2 (advanced probability theory for second/third year students).
 - Basic concepts in analysis (an advanced analysis course for M.Sc. students. This is a two-semester course that was taught for two years in a row).
 - First year infinitesimal calculus (infinitesimal calculus 1 and infinitesimal calculus 2).
 - Advanced calculus 1 (for second year students).
- Invited mini-courses and tutorials:

- Invited tutorial, Workshop on Linear Analysis and probability, Texas A&M University, July 2003. The tutorial on metric space theory was directed toward graduate students in Mathematics and Theoretical Computer Science.
- Invited tutorial, IPAM workshop on Multiscale Geometry and Analysis in High Dimensions, UCLA, September 2004.
- Invited tutorial, Doc-Course on Harmonic Analysis in Computer Science and Combinatorics, Charles University, Prague, September 2006.
- Invited mini-course, Spring school États de la recherche Géométrie et Probabilités en interaction, Toulouse France, May 2008.
- Invited mini-course, LMS/EPSRC Short Instructional Course, Cambridge University, July 2009.
- Invited mini-course, Concentration Week on Geometric Functional Analysis, Texas A&M University, July 2016.

Advising:

- **Ph.D. students:**

- Mustafa Alper Gunes (Princeton University, 2023-present).
- Cosmas Kravaris (Princeton University, 2023-present).
- Kevin Ren (Princeton University, 2023-present).
- Otte Heinävaara (Princeton University, 2019–2024. Dissertation title: *Tracial joint spectral measures*).
- Seung-Yeon Ryoo (Princeton University, 2018–2023. Dissertation title: *On the sharpness of the Assouad embedding theorem for finitely generated groups of polynomial growth and nilpotent Lie groups*).
- Alexandros Eskenazis (Princeton University, 2014–2019. Dissertation title: *Geometric Inequalities and Advances in the Ribe Program*).
- Sean Li (Courant Institute of Mathematical Sciences, 2009–2014. Dissertation title: *Quantitative Embeddability of Groups*).
- Steven Heilman (Courant Institute of Mathematical Sciences, 2008–2013. Dissertation title: *Gaussian Isoperimetry for Multiple Sets*).
- Ohad Giladi (Courant Institute of Mathematical Sciences, 2007–2011. Dissertation title: *Metric Type and Cotype in Banach Spaces*).

- **M.Sc. students:**

- Hassane Kone (Courant Institute of Mathematical Sciences, 2008–2009).

- **Visiting doctoral advisees:**

- Otte Heinävaara (Princeton University, Fall 2018).

- **Undergraduate research advisees:**

- Aukosh Jagannath (Courant Institute of Mathematical Sciences, 2013).
- Frederic Koehler (Princeton University, 2015. Junior thesis title: *Metric embeddings into L_1 and L_2 spaces*).
- Hristo Papazov (Princeton University, 2021. Senior thesis title: *Searching in general metric spaces*).

• **Post-doctoral advisees:**

- Alexandr Andoni (Center for Computational Intractability, affiliated with the Courant Institute of Mathematical Sciences, 2009–2010).
- Per Austrin (Courant Institute of Mathematical Sciences, 2009–2010).
- Jop Briët (Courant Institute of Mathematical Sciences, funded by Netherlands Rubicon grant, 2013–2015).
- Daniel Dadush (Simons Postdoc at the Courant Institute of Mathematical Sciences, 2012–2014).
- Arie Israel (NSF postdoctoral fellowship at the Courant Institute of Mathematical Sciences, 2011–2014).
- Paata Ivanisvili (A&G postdoc at Princeton, 2017–2019).
- William Leeb (A&G postdoc at Princeton, 2015–2017).
- Ofer Neiman (Courant Institute of Mathematical Sciences and Center for Computational Intractability, 2009–2011).
- Grigoris Paouris (Courant Institute of Mathematical Sciences, 2008–2009).
- Konstantin Tikhomirov (Instructor and A&G postdoc at Princeton, 2016–2019).
- Tomasz Tkocz (A&G postdoc at Princeton, 2015–2017).

• **Interns:**

- Nir Avni (Microsoft Research intern, 2005).
- James R. Lee (Microsoft Research intern, 2003 and 2004).
- Konstantin Makarychev (Microsoft Research intern, 2005).
- Yury Makarychev (Microsoft Research intern, 2005 and 2006).
- Lior Silberman (Microsoft Research intern, 2004).

Publications and preprints:

Journal papers:

- **Extension, separation and isomorphic reverse isoperimetry.** To appear in *Memoirs of the European Mathematical Society*.
- **An integer parallelotope with small surface area** (with O. Regev). *Journal of Functional Analysis* 285 (2023), no. 10, Paper No. 110122, 17 pp.

- **Cayley graphs that have a quantum ergodic eigenbasis** (with A. Sah, A. Sawhney and Y. Zhao). *Israel Journal of Mathematics* 256 (2023), 599–617.
- **Foliated corona decompositions** (with R. Young). *Acta Mathematica*, Vol. 229, No. 1 (2022), pp. 55–200.
- **Impossibility of almost extension**. *Advances in Mathematics* 384 (2021), 107761.
- **An average John theorem**. *Geometry & Topology* 25-4 (2021), 1631–1717.
- **The Andoni–Krauthgamer–Razenshteyn characterization of sketchable norms fails for sketchable metrics** (with S. Khot). *Harmonic Analysis and Applications, Springer Optimization and Its Applications* (2021), 185–204.
- **Impossibility of dimension reduction in the nuclear norm** (with G. Pisier and G. Schechtman). *Discrete and Computational Geometry*, 63 (2020), pages 319–345.
- **Concentration of Markov chains with bounded moments** (with S. Rao and O. Regev). *Annales de l’Institut Henri Poincaré Probabilités et Statistiques* 56 (2020), no. 3, 2270–2280.
- **Moments of the distance between independent random vectors** (with K. Oleszkiewicz). *Geometric Aspects of Functional Analysis, Springer Lecture Notes in Mathematics* 2266, Volume II (2020), pages 229–256.
- **Nonpositive curvature is not coarsely universal** (with A. Eskenazis and M. Mendel). *Inventiones mathematicae* volume 217, issue 3 (2019), pages 833–886.
- **Metric dimension reduction: A snapshot of the Ribe program**. *Proceedings of the 2018 International Congress of Mathematicians, Rio de Janeiro, Volume 1* (2018), 759–837.
- **Vertical perimeter versus horizontal perimeter** (with R. Young). *Annals of Mathematics* 188 (2018), no. 1, 171–279.
- **Heat flow and quantitative differentiation** (with T. Hytönen). *Journal of the European Mathematical Society* Volume 21, Issue 11, 2019, pages 3415–3466.
- **Snowflake universality of Wasserstein spaces** (with A. Andoni and O. Neiman). *Annales scientifiques de l’École normale supérieure* (4) 51 (2018), no. 3, 657–700.
- **Restricted invertibility revisited** (with P. Youssef). *Journey Through Discrete Mathematics. A Tribute to Jiří Matoušek*, pages 657–691, Springer International Publishing (2017).
- **Discrete Riesz transforms and sharp metric X_p inequalities**. *Annals of Mathematics*, Volume 184 (2016), Issue 3, pages 991–1016.
- **Quantitative affine approximation for UMD targets** (with T. Hytönen and S. Li). *Discrete Analysis* 2016:6.
- **Metric X_p inequalities** (with G. Schechtman). *Forum of Mathematics, Pi* 4 (2016), e3.

- **Pythagorean powers of hypercubes** (with G. Schechtman). *Annales de l'Institut Fourier* 66 no. 3 (2016), pages 1093–1116.
- **Uniform nonextendability from nets**. *Comptes Rendus de l'Académie des Sciences - Series I - Mathematics* 353 (2015), no. 11, 991–994.
- **On Lipschitz extension from finite subsets** (with Y. Rabani).

- **Overlap properties of geometric expanders** (with J. Fox, M. Gromov, V. Lafforgue and J. Pach). SODA 2011.
- **The Grothendieck constant is strictly smaller than Krivine's bound** (with M. Braverman, K. Makarychev and Y. Makarychev). FOCS 2011.

- **Solution of the propeller conjecture in \mathbb{R}^3** (with S. Heilman and A. Jagannath). STOC 2012.
- **Efficient rounding for the noncommutative Grothendieck inequality** (with O. Regev and T. Vidick). STOC 2013.
- **Expanders with respect to Hadamard spaces and random graphs** (with M. Mendel). ITCS 2014.
- **Impossibility of sketching of the 3D transportation metric with quadratic cost** (with A. Andoni and O. Neiman). ICALP 2016.
- **Probabilistic clustering of high dimensional norms**. SODA 2017.
- **The integrality gap of the Goemans–Linial SDP relaxation for Sparsest Cut is at least a constant multiple of $\sqrt{\log n}$** (with R. Young). STOC 2017.
- **A spectral gap precludes low-dimensional embeddings**. SoCG 2017.
- **Impossibility of dimension reduction in the nuclear norm** (with G. Pisier and G. Schechtman). SODA 2018.
- **Data-dependent hashing via nonlinear spectral gaps** (with A. Andoni, A. Nikolov, I. Razenshteyn, E. Waingarten). STOC 2018.
- **Hölder homeomorphisms and approximate nearest neighbors** (with A. Andoni, A. Nikolov, I. Razenshteyn, E. Waingarten). FOCS 2018.
- **The Andoni–Krauthgamer–Razenshteyn characterization of sketchable norms fails for sketchable metrics** (with S. Khot). SODA 2019.
- **A Framework for quadratic form maximization over convex sets through non-convex relaxations** (with V. Bhattiprolu and E. Lee). STOC 2021.

Preprints:

- **Metric decomposition, smooth measures, and clustering** (with J. R. Lee).
- **On the bi-Lipschitz structure of Wasserstein spaces** (with T. Austin).
- **An approximation scheme for quadratic form maximization on convex bodies** (with G. Schechtman).
- **On isomorphic dimension reduction in ℓ_1** (with A. Andoni and Ofer Neiman).
- **Absolute extendability revisited** (with M. Mendel).
- **A weighted Sobolev embedding on the discrete torus and nonexistence of gentle partitions of unity** (with M. Mendel and Y. Rabani).
- **Obstructions to metric embeddings of Schatten classes** (with G. Schechtman).

- **Lipschitz almost-extension and nonexistence of uniform embeddings of balls in Schatten classes** (with G. Schechtman).
- **The binary tensor conductance of $M_n(\mathbb{Z}_m)$** (with G. Schechtman).
- **Universalizing permutation groups.**
- **On coarse and uniform embeddings into L_p** (with A. Eskenazis).
- **Diamond convexity: A bifurcation in the Ribe program** (with A. Eskenazis and M. Mendel).
- **A Courant–Fischer bound for coordinate subspaces** (with P. Youssef).
- **Existence of a stably proximal parallelepiped** (with P. Youssef).
- **Discrete Littlewood–Paley–Stein theory and Pisier’s inequality for superreflexive targets** (with A. Eskenazis).
- **Krivine diffusions** (with R. Eldan).
- **Every probability measure on the ball has a sub-Gaussian orthonormal basis** (with A. Sah, A. Sawhney and Y. Zhao).
- **Quantitative Wasserstein rounding** (with M. Braverman).
- **On the inverse problem for isometry groups of Banach spaces** (with E. Breuillard, M. W. Liebeck and A. Rizzoli).
- **Approximate isoperimetry for convex polytopes** (with K. Ball and K. Böröczky).
- **Stability of subsets of Hadamard spaces under metric transforms** (with A. Eskenazis and M. Mendel).
- **Mixing convexity.**

Invited Talks and Visiting Positions:

- Invited talk, International Workshop on Geometric Convex Analysis, Technion, Israel. March 2000.
- Invited talk, International Functional Analysis Meeting, Valencia, Spain. July 2000.
- Invited talk, Functional analysis session of the Israeli Mathematical Union meeting, Weizmann Institute, Israel. June 2001.
- Three invited talks, Workshop on Linear Analysis and Probability and SUMMIRFAS conference, College Station, Texas. July-August 2001.
- Invited Talk, Conference on Convex Geometric Analysis, Crete, Greece. August 2001.
- Invited talk, GAFA seminar, Tel-Aviv, Israel. November 2001.
- Invited talk, analysis seminar, Technion, Israel. December 2001.
- Invited talk, analysis seminar, University of Paris 6, Paris France. January 2002.
- Invited talk, analysis seminar, University of Marne-la-Valee, France. January 2002.
- Visiting researcher, Australian National University, Canberra, Australia. February 2002.

- Invited talk, Workshop on Discrete Metric Spaces and their Algorithmic Applications, Haifa University, March 2002.
- Invited talk, Conference on Geometric and Topological Aspects of Functional Analysis, Haifa University, May, 2002.
- Invited talk, analysis seminar, University of Marne-la-Valee, France. May 2002.
- Two invited talks, thematic program on asymptotic geometric analysis, Pacific Institute of Mathematics, Vancouver BC, Canada. July-August 2002.
- Invited talk, Combinatorics/Geometry seminar, University of Washington, Seattle WA, USA. October 2002.
- Short term visitor (November 1-15 2002), Institute for Advanced Study, Princeton NJ, USA. Invited talk at the Theoretical Computer Science and Discrete Mathematics seminar.
- Invited talk, Probability Seminar, University of Washington, Seattle WA, USA. November 2002.
- Invited talk, national meeting of the American Mathematical Society, special session on Banach spaces and convex geometry, Baltimore MD, USA, January 2003.
- Visiting fellow, Research School of Information Sciences and Engineering, The Australian National University, Canberra, Australia, February 2003.
- Mathematics colloquium talk, The Australian National University, Canberra, Australia, February 2003.
- Invited talk, Conference on Banach Spaces and Convex Geometric Analysis, Kiel, Germany, April 2003.
- Invited tutorial, Workshop on linear analysis and probability, College Station Texas, July 2003.
- Two invited talks, Workshop on discrete metric spaces and their algorithmic application, Princeton, August 2003.
- Invited talk, session on analysis on singular spaces, sectional AMS meeting, Boulder CO, October 2003.
- Invited talk, probability seminar, U. C. Berkeley, October 2003.
- Invited talk, complex analysis seminar, University of Washington, October 2003.
- Invited talk, theory of computing seminar, MIT, October 2003.
- Invited talk, theory of computing seminar, University of Washington, November 2003.
- Visiting fellow, Research School of Information Sciences and Engineering, The Australian National University, Canberra, Australia, November 2003.
- Invited talk, Geometry seminar, New York University, March 2004.
- Invited talk at the Pacific Northwest Theory of Computing Day, Microsoft, May 2004.
- Invited talk, Columbia Applied Probability Day, Columbia University, May 2004.
- Invited talk, GAFA seminar, Tel-Aviv University, May 2004.
- Invited talk, Workshop on Mathematical Foundations of Computer Science, ETH Zürich, May 2004.
- Invited talk, Workshop on Recent Developments in Finite Metric Spaces: Theory and Algorithmic Applications, Haifa University, June 2004.
- Invited talk, conference on Mathematical Foundations of Learning Theory, Barcelona, June 2004.
- Invited talk, Banff workshop on Convex Geometric Analysis, July 2004.
- Invited tutorial, IPAM workshop on Multiscale Geometry and Analysis in High Dimensions, UCLA, September 2004.
- Invited talk, mathematics colloquium, Georgia Institute of Technology, October 2004.
- Invited talk, combinatorics and optimization seminar, University of Waterloo, October 2004.
- Invited talk, IPAM workshop Multiscale structures in the analysis of High-DimensionalData, UCLA, October 2004.
- Invited talk, analysis seminar, Caltech, October 2004.
- Invited talk, probability seminar, U. C. Berkeley, November 2004.
- Invited talk, theory of computing seminar, University of Washington, November 2004.

- Invited talk, Applied and Computational Mathematics Colloquium, CALTECH, November 2004.
- Invited talk, IPAM workshop on Math Analysis and Multiscale Geometric Analysis, UCLA, November 2004.
- Invited talk, theory of computing seminar, U. C. Berkeley, December 2004.
- Invited talk, mathematics colloquium, U. C. Berkeley, December 2004.
- Invited talk, Conference on Harmonic Analysis, Ergodic Theory and Probability (a conference in honor of I. Katznelson's 70th Birthday), Stanford, December 2004.
- Invited talk, probability seminar, University of Washington, February 2005.
- Invited talk, algorithms seminar, Stanford University, February 2005.
- Invited talk, mathematics colloquium, Courant Institute, New York University, March 2005.
- Invited talk, analysis seminar, Weizmann Institute, March 2005.
- Invited talk, mathematics colloquium, Hebrew University, Jerusalem, March 2005.
- Invited talk, GAFA seminar, Tel-Aviv University, April 2005.
- Invited talk, analysis seminar, Stanford University, April 2005.
- Invited talk, applied mathematics colloquium, MIT, April 2005.
- Invited talk, analysis seminar, MIT, April 2005.
- Invited talk, applied mathematics colloquium, Harvard University, April 2005.
- Invited talk, analysis seminar, UCLA, May 2005.
- Invited talk, Contemporary Ramifications of Banach Space Theory (conference in honor of Joram Lindenstrauss and Lior Tzafriri), Hebrew University, Jerusalem, June 2005.
- Invited talk, Asymptotic Geometric Analysis (conference in honor of Nicole Tomczak-Jaegermann), Dead Sea, June 2005.
- Invited talk, conference in honor of Haskell Rosenthal, Texas A&M University, August 2005.
- Invited talk, mathematics colloquium, University of Minnesota, September 2005.
- Invited talk, Industrial Problems Seminar, University of Minnesota, September 2005.
- Plenary address, Southeast Section Meeting of the American Mathematical Society, October 2005.
- Short-term member, Institute for Advanced Study, October 2005.
- Invited talk, computer science/discrete mathematics seminar, Institute for Advanced Study, October 2005.
- Invited talk, mathematics colloquium, Princeton University, October 2005.
- Invited talk, analysis seminar, Weizmann Institute, December 2005.
- Invited talk, mathematics colloquium, Hebrew University, December 2005.
- Invited talk, national AMS meeting, special session on extensions of functions, San Antonio, January 2006.
- Invited tutorial, Doc-Course on Harmonic Analysis in Computer Science and Combinatorics, Charles University, Prague, September 2006.
- Invited talk, probability seminar, NYU, March 2006.
- Plenary talk, Banach Spaces and their Applications in Analysis (conference in honor of Nigel Kalton), Miami University, Ohio, May 2006.
- Plenary talk, annual meeting of the European network on Phenomena of High Dimensions, Institut Henri Poincaré, Paris France, June 2006.
- Invited talk, conference on Random Graphs and Large-Scale Real-World Networks, Institute for Mathematical Sciences, Singapore, June 2006.
- Invited educational talk, conference on Asymptotic Geometry and its applications, Institut Henri Poincaré, Paris France, July 2006.
- Plenary talk, conference on Asymptotic Geometry and its applications, Institut Henri Poincaré, Paris France, July 2006.

- Two educational talks, workshop on Metric Geometry and Geometric Embeddings of Discrete Metric Spaces, Texas A&M University, July 2006.
- Invited talk, workshop on Metric Geometry and Geometric Embeddings of Discrete Metric Spaces, Texas A&M University, July 2006.
- Plenary talk at the conference “Banach space theory: classical topics and new directions,” Caceres Spain, September 2006.
- Invited talk, analysis seminar, UCLA, October 2006.
- Invited talk, Oberwolfach workshop “Probability, combinatorics, and computing,” November 2006.
- Invited talk, EXCILL: Extremal Combinatorics at Illinois, University of Illinois at Urbana-Champaign, November 2006.
- Invited talk, Oberwolfach workshop “Konvexgeometrie,” December 2006.
- Kuwait Foundation Lecture, University of Cambridge, Cambridge UK, February 2007.
- Invited talk, combinatorics seminar, University of Cambridge, Cambridge UK, February 2007.
- Invited mini-course, research semester on limits of graphs in group theory and computer science, Bernoulli Center, EPFL Lausanne, March 2007.
- Invited talk, Colloquium on Combinatorial Computing, CUNY Graduate Center, New York, April 2007.
- Invited talk, discrete mathematics seminar, Princeton University, April 2007.
- Invited talk, Theory of Computation Colloquium, MIT, May 2007.
- Invited talk, theory seminar, Princeton University, May 2007.
- Invited speaker, C&O@40 conference, University of Waterloo, June 2007.
- Consulting researcher at Microsoft Research, June-July 2007.
- Invited speaker, Conference on Real Analysis, Geometric Measure Theory, PDE and Banach Spaces, Warwick University, August 2007.
- Invited talk, Mathematics Colloquium, Brooklyn Polytechnic University, September 2007.
- Invited talk, Discrete Mathematics Seminar, Columbia University, October 2007.
- Norbert Wiener Lecture Series, MIT, October 2007.
- Invited talk, Mathematics Colloquium, Stanford University, November 2007.
- Plenary address, Joint meeting of the American Mathematical Society and the New Zealand Mathematical Society, Wellington New Zealand, December 2007.
- Invited talk, Open University of Israel Theory Day, Israel, March 2008.
- Invited talk, IAS discrete mathematics and theoretical computer science seminar, Princeton, April 2008.
- Invited talk, mathematics colloquium, UCSD, San Diego, April 2008.
- Plenary talk, Clay Research Conference, Cambridge MA, May 2008.
- Invited mini-course at the spring school États de la recherche Géométrie et Probabilité s en interaction, Université Paul-Sabatier, Toulouse France, May 2008.
- Plenary talk, annual meeting of the Israel Mathematics Union, May 2008.
- Invited talk, Symposium on geometry of Banach spaces in memory of Lior Tzafriri, Hebrew University, Jerusalem Israel, May 2008.
- Invited talk, Geometric Functional Analysis and Probability Seminar, Weizmann Institute, Rehovot Israel, June 2008.
- Invited address, 5th European Congress of Mathematics, Amsterdam, July 2008.
- Invited talk, Oberwolfach meeting on Discrete Geometry, September 2008.
- Invited talk, Mathematics Colloquium, Brooklyn Polytechnic University, October 2008.
- Invited talk, IBM T.J. Watson Research Center, October 2008.
- Plenary talk, New York Area Theory Day, December 2008.

- Invited talk, Mathematics Colloquium, Rutgers University, December 2008.
- Invited talk, IPAM workshop “Quantitative and Computational Aspects of Metric Geometry,” January 2009.
- Invited talk, Mathematics Colloquium, Columbia University, January 2009.
- Invited talk, Computer Science and Discrete Mathematics Seminar, Institute for Advanced Study, February 2009.
- Invited talk, Geometric Functional Analysis and Probability Seminar, Weizmann Institute, March 2009.
- Invited talk, Discrete Analysis Seminar, Cambridge University, March 2009.
- Invited talk, Lior Tzafriri Memorial Meeting, Hebrew University, March 2009.
- Invited talk, Probability Seminar, MIT, April 2009.
- Invited talk, Combinatorics and Probability Seminar, University of Pennsylvania, April 2009.
- Invited talk, International Conference on Metric and Differential Geometry, Chern Institute of Mathematics, Tianjin, and the Capital Normal University, Beijing, May 2009.
- Visiting researcher, Microsoft Research, Redmond WA, June 2009.
- Invited talk, Microsoft Research Theory Group, Redmond WA, June 2009.
- Invited talk, conference on Affine Isometric Actions of Discrete Groups, Ascona Switzerland, June 2009.
- Visiting researcher, “Methods for Discrete Structures” program, Technische Universität Berlin, July-August 2009.
- Invited talk, Mathematics Colloquium, Technische Universität Berlin, July 2009.
- Invited min-course, LMS/EPSRC Short Instructional Course, Cambridge University, July 2009.
- Invited talk, Annual Packard Fellows Meeting, Monterey CA, September 2009.
- Invited talk, Mathematics Colloquium, Brooklyn Polytechnic University, September 2009.
- Invited talk, Mathematics Colloquium, Courant Institute, New York University, October 2009.
- Invited talk, workshop on Analytical Methods in Combinatorics, Additive Number Theory and Computer Science, IPAM, UCLA, December 2009.
- Invited talk, Probability Seminar, IMPA, Rio de Janeiro, January 2010.
- Invited talk, Mathematics Colloquium, Princeton University, March 2010.
- Invited talk, Discrete Mathematics Seminar, Princeton University, April 2010.
- Invited talk, Mathematics Colloquium, Harvard University, April 2010.
- Invited talk, Probability Seminar, Cornell University, April 2010.
- Professeur invité, Université Paris 6, May-June 2010.
- Invited talk, conference on “Probability and Geometry in High Dimensions,” Paris, May 2010.
- Invited talk, functional analysis seminar, Université Paris 6, May 2010.
- Invited talk, operator algebras seminar, Université Paris 7, May 2010.
- Invited talk, topology and dynamics seminar, Université Paris-Sud 11, June 2010.
- Invited talk, conference on “Groups and Large Scale Geometry,” Clermont-Ferrand, June 2010.
- Plenary speaker, SUMIRFAS 2010, Texas A&M University, July 2010.
- Plenary speaker, conference on “Perspectives in High Dimensions,” Case Western Reserve University, August 2010.
- Invited talk, International Congress of Mathematicians, Hyderabad India, August 2010.
- Invited talk, mathematics colloquium, Brooklyn Polytechnic University, October 2010.
- Invited talk, mathematics colloquium, Yale University, October 2010.
- Invited talk, computer science and discrete mathematics seminar, Institute for Advanced Study, December 2010.
- Invited talk, workshop on embeddings, Newton Institute for Mathematical Sciences, January 2011.

- Invited talk, workshop on metric embeddings, algorithms and hardness of approximation, Institut Henri Poincaré, January 2011.
- Invited talk, Séminaire Bourbaki, January 2011.
- Invited talk, geometry seminar, Indiana University Bloomington, February 2011.
- Invited talk, Seymour Sherman Memorial Lecture Series, Indiana University Bloomington, February 2011.
- Invited talk, discrete geometry and combinatorics seminar, University College London, March 2011.
- Invited talk, monthly meeting of the Center for Computational Intractability, Princeton NJ, April 2011.
- Zygmund-Calderón lecture series (3 lectures), University of Chicago, April 2011.
- Plenary address, conference for the 75th anniversary of the Courant Institute, May 2011.
- Invited talk, annual meeting of the Isaac Newton Institute Correspondents, June 2011.
- Professeur invité, Ecole Normale Supérieure, June-July 2011.
- Invited talk, séminaire d'analyse fonctionnelle, Université Paris 6, June 2011.
- Invited talk, Rényi Institute of Mathematics, Budapest, July 2011.
- Invited talk, analysis seminar, Princeton University, September 2011.
- Invited talk, mathematics colloquium, Princeton University, September 2011.
- Invited talk, workshop on Probabilistic Reasoning in Quantitative Geometry, September 2011.
- Invited talk, Bay Area Discrete Mathematics Day, U. C. Davis, October 2011.
- Invited talk, mathematics colloquium, UCLA, November 2011.
- Invited talk, Bay Area Differential Geometry Seminar, November 2011.
- Invited talk, probability seminar, U. C. Berkeley, November 2011.
- Invited talk, Southern California Analysis and PDE Conference, U. C. Irvine, December 2011.
- Invited talk, mathematics colloquium, Hebrew University in Jerusalem, December 2011.
- Invited talk, discrete mathematics seminar, Columbia University, February 2012.
- Invited talk, Mathematics Colloquium, Columbia University, February 2012.
- Invited talk, Special Guest Lecture, Yale University, February 2012.
- Invited talk, Mathematics Colloquium, Brooklyn Polytechnic University, March 2012.
- Invited talk, probability seminar, Harvard University, April 2012.
- Invited talk, combinatorics seminar, MIT, April 2012.
- Invited talk, Mathematics Colloquium, Stony Brook University, April 2012.
- Takagi lecture series (2 lectures), Kyoto University, May 2012.
- Invited talk, conference on “Phenomena in high dimensions in geometric analysis, random matrices and computational geometry,” Roscoff France, June 2012.
- Distinguished lecture series (3 lectures), Fields Institute, August 2012.
- Plenary talk, annual meeting of the Australian Mathematical Society, Ballarat Australia, September 2012.
- Plenary talk, Journées GDR “Analyse Fonctionnelle, Harmonique et Probabilité,” Université de Paris Est Marne-la-Vallée, October 2012.
- Invited talk, Séminaire Analyse Fonctionnelle, Université Paris 6, November 2012.
- Invited talk, Geometry-Dynamics seminar, Lille University, November 2012.
- Plenary talk, Oberwolfach workshop Convex Geometry and its Applications, December 2012.
- Invited talk, Simons Symposium in New Approaches in Approximation Algorithms, January 2013.
- Invited talks, meeting of the Center for Computational Intractability (Princeton) on Grothendieck Inequalities (two talks), March 2013.
- Invited talk, Mathematics Colloquium, Brooklyn Polytechnic University, March 2013.

- Invited talk, IPAM workshop on Analysis on Metric Spaces, UCLA, March 2013.
- Invited talk, Columbia-Princeton Probability Day, Princeton University, March 2013.
- Invited talk, Mathematics Colloquium, Yale University, April 2013.
- Main speaker, Rivière-Fabes Symposium in Analysis and PDE (two talks), University of Minnesota, April 2013.
- Frontiers in Mathematics Lecture Series (three talks), Texas A&M University, May 2013.
- Invited talk, conference on “Banach Spaces: Geometry and Analysis,” Hebrew University at Jerusalem, May 2013.
- Invited talk, memorial day for Joram Lindenstrauss, Israeli Academy of Sciences and Humanities, June 2013.
- Invited talk, Erdős Memorial Conference, Budapest, July 2013.
- Invited talk, Microsoft Research Theory Group, Redmond WA, July 2013.
- Invited talk, workshop on “Metric Geometry, Geometric Topology and Groups,” Banff International Research Station, August 2013.
- Invited talk, Packard Fellows 25th anniversary meeting, Denver, September 2013.
- Minerva Distinguished Lecture Series in Mathematics (three talks), Princeton University, October 2013.
- Invited talk, Charles River Lectures on Probability and Related Topics, MIT, October 2013.
- Invited talk, conference on “Neo-Classical Methods in Discrete Analysis,” Simons Institute, Berkeley, December 2013.
- Invited talk, conference on Innovations in Theoretical Computer Science (ITCS), Princeton, January 2014.
- Invited talk, special session at the national AMS meeting on “Banach Spaces, Metric Embeddings, and Applications,” Baltimore, January 2014.
- Invited talk, conference on Semidefinite Programming and Graph Algorithms, ICERM, Brown University, February 2014.
- Invited talk, Mathematics–Computer Science colloquium, Université Paul Sabatier, Toulouse, February 2014.
- Invited talk, Mathematics Colloquium, University of Chicago, March 2014.
- Invited talk, Mathematics Colloquium, Brooklyn Polytechnic University, March 2014.
- Invited talk, Applied Mathematics Colloquium, Harvard University, April 2014.
- Wolfe Lecture in Mathematics, Rice University, April 2014.
- Invited talk, workshop on Real Analysis, Harmonic Analysis and Applications. Oberwolfach, Germany, July 2014.
- Invited talk, Mathematics Colloquium, University of Pittsburgh, September 2014.
- Invited talk, annual meeting of the Simons Foundation Division for Mathematics and Physical Sciences, New York, October 2014.
- Invited talk, Computer Science and Discrete Mathematics Seminar, Institute for Advanced Study, October 2014.
- Invited talk, Functional Analysis Seminar, UCLA, November 2014.
- Invited talk, conference on “The many facets of entropy: Kinetic Theory, Optimal Transport, Geometry,” Fields Institute, Toronto, November 2014.
- Invited talk, Rényi Institute of Mathematics, Budapest, December 2014.
- Invited talk, What’s Happening in Fine Hall Lecture Series, Princeton, April 2015.
- Invited talk, Mathematics Colloquium, University of Pennsylvania, April 2015.
- Plenary speaker, conference on “Relations Between Banach Space Theory and Geometric Measure Theory,” University of Warwick, June 2015.
- Invited talk, Mathematics Colloquium, University of Athens, June 2015.
- Invited talk, Mathematics Colloquium, University of Crete, July 2015.

- Invited talk, conference on “Combinatorics: Challenges and Applications,” Tel Aviv University, January 2016.
- Blyth Lectures (three talks), University of Toronto, March 2016.
- Invited talk, Simons Symposium on Analysis of Boolean Functions, Munich, April 2016.
- Invited talk, Colloquium of The Program in Applied and Computational Mathematics (PACM), Princeton University, April 2016.
- Invited talk, Connecticut Valley Colloquium series, University of Massachusetts Amherst, April 2016.
- Invited talk, Zürich colloquium in mathematics, ETH Zürich, May 2016.
- Invited talk, Seminar on stochastic processes, ETH Zürich, May 2016.
- Invited lecture series (three talks), conference on Geometric Functional Analysis, Texas A&M University, July 2016.
- Plenary speaker, Barcelona Analysis Conference, September 2016.
- Invited talk, Geometric Functional Analysis and Probability Seminar, Weizmann Institute, September 2016.
- Invited talk, Geometric Analysis and Topology Seminar, Courant Institute, November 2016.
- Invited talk, Combinatorics Seminar, Stanford University, December 2016.
- Invited talk, Geometric Functional Analysis and Probability Seminar, Weizmann Institute, January 2017.
- Invited talk, SODA 2017, Barcelona, January 2017.
- Invited talk, Discrete Math Seminar, Rutgers University, April 2017.
- Invited talk, Special Session on “Banach Space Theory and Metric Embeddings” at the Spring Eastern Sectional Meeting of the American Mathematical Society, City University of New York, May 2017.
- Invited talk, IAS Program for Women and Mathematics, Princeton, May 2017.
- Invited talk, STOC 2017, Montreal, June 2017.
- Invited talk, Mathematical Congress of the Americas, special session on “Quantitative Geometry and Topology,” Montreal, July 2017.
- Invited talk, conference on “Elegance in probability,” Tel Aviv University, September 2017.
- Invited talk, Scientific Colloquium, Renaissance Technologies, October 2017.
- Invited talk, conference on “Nonlinear functional analysis,” Centre International de Rencontres Mathématiques, Luminy France, March 2018.
- Invited talk, Computer Science/Discrete Mathematics Seminar II, Institute for Advanced Study, March 2018.
- Invited talk, Analysis Seminar Seminar, Institute for Advanced Study, March 2018.
- Main speaker, 50th Anniversary meeting of the North British Functional Analysis Seminar, International Centre for Mathematical Sciences in Edinburgh, April 2018.
- Invited talk, Oberwolfach workshop on “Superexpanders and their coarse geometry,” April 2018.
- Invited talk, IPAM workshop on “Approximation Properties in Operator Algebras and Ergodic Theory,” May 2018.
- Plenary lecture, International Congress of Mathematicians, Rio de Janeiro, August 2018.
- Invited talk, Conference on “Singularities: Geometric, Topological, and Analytic Aspects,” Simons Foundation, August 2018.
- Invited talk, Open University of Israel, August 2018.
- Invited talk, Geometric Functional Analysis and Probability Seminar, Weizmann Institute, August 2018.
- Invited talk, Rényi Institute of Mathematics, September 2018.
- Invited talk, Mathematics Colloquium, UCLA, November 2018.
- Plenary lecture, conference on “Celebration of Mathematics: 150 years of the Finnish Mathematical Society,” Helsinki, November 2018.
- Chern Lectures (four talks), U.C. Berkeley, March 2019.

- Invited talk, Mathematics Colloquium, Northwestern University, May 2019.
- Invited talk, Probability Seminar, Northwestern University, May 2019.
- Invited talk, workshop on “Metric Embeddings and Dimensionality Reduction,” Northwestern University, May 2019.
- Dvoretzky Lectures (two talks), Hebrew University, June 2019.
- Invited talk, conference on “Geometry and Analysis: celebrating the mathematics of Pierre Pansu,” University of Oxford, September 2019.
- Introductory talk, conference on “Beyond Spectral Gaps,” University of Oxford, September 2019.
- Invited talk, Probability Seminar, Stanford University, December 2019.
- Invited talk, Group Theory Seminar, École normale supérieure, Paris, December 2019.
- Invited talk, Séminaire d’Analyse Fonctionnelle, Institut de Mathématiques de Jussieu-Paris Rive Gauche, December 2019.
- Invited talk, conference on “Games, Optimization and Optimism: in honor of Uri Feige,” Weizmann Institute, January 2020.
- Invited talk, Ostrowski Prize ceremony, University of Basel, February 2020.
- Invited talk, FIM Lecture, ETH Zürich, February 2020.
- Invited talk, conference on “Analysis, Dynamics, Geometry and Probability,” Simons Center for Geometry and Physics, Stony Brook University, March 2020.
- Invited talk, Functional Analysis Seminar of the Institute of Mathematics of the Polish Academy of Sciences, December 2020.
- Invited talk, What’s Happening in Fine Hall seminar, Princeton, March 2021.
- Keynote lecture, Netherlands Mathematical Congress (NMC), April 2021.
- Invited talk, Geometry Seminar, Penn State University, April 2021.
- Invited talk, Mathematics Colloquium, Courant Institute, May 2021.
- Invited talk, PIMS Network Wide Colloquium, September 2021.
- Invited talk, 14th Whitney Problems Workshop, November 2021.
- Invited talk, workshop on “Calculus of Variations in Probability and Geometry,” IPAM, UCLA, February 2022.
- Invited talk, Mathematics Colloquium, University of Arizona, March 2022.
- Invited talk, Mathematics Colloquium, NYU Abu Dhabi, April 2022.
- Invited talk, PACM Colloquium, Princeton University, April 2022.
- Invited talk, Mathematical Picture Language Seminar, Harvard University, April 2022.
- Invited talk, Mathematics Colloquium, Penn State University, April 2022.
- Invited talk, 36th Geometry Festival, Courant Institute, May 2022.
- Invited talk, workshop on “High-Dimensional Analysis and Geometry,” The Institute for Data, Econometrics, Algorithms, and Learning (IDEAL), Chicago, May 2022.
- Invited talk, conference on “Functional Analysis in Lille,” Université de Lille, June 2022.
- Invited talk, Special Session on “Quantitative Geometry of Transportation Metrics,” of the AMS-SMF-EMS Joint International Meeting in Grenoble, France, July 2022.
- Keynote speaker, TAU Theory-Fest, Tel Aviv University, December 2022.
- Invited 2 hour talk, Computer Science and Discrete Mathematics Seminar, Institute for Advanced Study, April 2023.
- Invited talk, Probability and Analysis Webinar, April 2023.
- Invited talk, conference on “Sub-Riemannian Geometry and Beyond,” Pisa, June 2023.
- Invited talk, conference on “Geometry and analysis of groups and manifolds,” Pisa, June 2023.

- Invited talk, Conference in honour of Luigi Ambrosios 60th birthday, ETH Zürich, September 2023.
- Invited talk, Séminaire d'Analyse Fonctionnelle, Institut de Mathématiques de Jussieu-Paris Rive Gauche, December 2023.
- Invited talk, conference on “Quantitative Topology and Related Areas,” Simons Foundation NYC, February 2024.
- Invited talk, workshop on “High dimensional phenomena: geometric and probabilistic aspects,” Hausdorff Research Institute, March 2024.
- Invited talk, conference on “Structure and Randomness - a celebration of the mathematics of Timothy Gowers,” Isaac Newton Institute, April 2024.
- Simons Lectures in Mathematics (3 talks), Stony Brook University, May 2024.
- Main speaker, SUMIRFAS 35th anniversary meeting, Texas A&M University, July 2024.
