Paul Seymour – Papers

Revised March 12, 2024

1. P. Seymour, "On incomparable collections of sets", *Mathematica* **20** (1973), 208–209.

2. P. Seymour, "A note on a combinatorial problem of Erdös and Hajnal", *J. London Math. Soc.* (2), **8** (1974), 681–682.

3. P. Seymour, "On the two-colouring of hypergraphs", *Quart. J. Math., Oxford* (2), **25** (1974), 303–312.

4. P. Seymour, "The max-flow min-cut property in matroids", *Proc. 5th British Combinatorial Conference,* 1975, 545–549.

5. P. Seymour and D. J. A. Welsh, "Combinatorial applications of an inequality from statistical mechanics", *Math. Proc. Camb. Phil. Soc.* **77** (1975), 485–495.

6. P. Seymour, "The forbidden minors of binary clutters", *J. London Math. Soc.* (2), **12** (1976), 356–360.

7. P. Seymour, "A forbidden minor characterization of matroid ports", *Quart. J. Math., Oxford* (2), **27** (1976), 407–413.

8. P. Seymour, "The matroids representable over GF(3)", *Problèmes combinatoires et théorie des graphes,* Colloques internationaux CNRS No 260 (Orsay, 1976), 370–381.

9. P. Seymour, "A note on the production of matroid minors", *J. Combinatorial Theory, Ser. B,* **22** (1977), 289–295.

10. P. Seymour, "The matroids with the max.-flow min.-cut property", *J. Combinatorial Theory, Ser. B,* **23** (1977), 189–222.

11. P. Seymour, "Sums of circuits", *Graph Theory and Related Topics* (eds. J. A. Bondy and U. S. R. Murty), *Academic Press,* 1978, 341–355.

12. P. Seymour, "A two-commodity cut theorem", *Discrete Math.* **23** (1978), 177–181.

13. P. Seymour, "Counterexample to a conjecture of Jeurissen", *Discrete Math.* **24** (1978), 315.

14. P. Seymour and D. J. A. Welsh, "Percolation probabilities on the square lattice", *Annals of Discrete Math.* **3** (1978), 227–245.

15. P. Seymour, "Some applications of matroid decomposition", *Algebraic Methods in Graph Theory, Proc. Colloq. Math. Soc. János Bolyai* (25), Szeged, Hungary, 1978, 713–726.

16. P. Seymour, "Matroid representation over GF(3)", *J. Combinatorial Theory, Ser. B,* **26** (1979), 159–173.

17. P. Seymour, "On multicolourings of cubic graphs, and conjectures of Fulkerson and Tutte", *Proc. London Math. Soc.* (3), **38** (1979), 423–460.

18. P. Seymour, "A short proof of the two-commodity flow theorem", *J. Combinatorial Theory, Ser. B,* **26** (1979), 370–371.

19. A. Schrijver and P. Seymour, "Solution of two fractional packing problems of Lovász", *Discrete Math.* **26** (1979), 177–184.

20. P. Seymour, "Packing and covering with matroid circuits", *J. Combinatorial Theory, Ser. B,* **28** (1980), 237–242.

21. P. Seymour, "Disjoint paths in graphs", *Discrete Math.* **29** (1980), 293–309.

22. P. Seymour, "Four-terminus flows", *Networks* **10** (1980), 79–86.

23. P. Seymour, "Decomposition of regular matroids", *J. Combinatorial Theory, Ser. B,* **28** (1980), 305–359.

24. P. Seymour, "On Tutte's characterization of graphic matroids", *Combinatorics 1979, Annals of Discrete Math.* **8** (1980), 83–90.

25. H. Okamura and P. Seymour, "Multicommodity flows in planar graphs", *J. Combinatorial Theory, Ser. B,* **31** (1981), 75–81.

26. P. Seymour, "On odd cuts and plane multicommodity flows", *Proc. London Math. Soc.* (3) **42** (1981), 178–192.

27. P. Seymour, "Matroids and multicommodity flows", *European J. Comb.* **2** (1981), 257–290.

28. P. Seymour, "On Tutte's extension of the four-colour problem", *J. Combinatorial Theory, Ser. B,* **31** (1981), 82–94.

29. P. Seymour, "Recognizing graphic matroids", *Combinatorica* **1** (1981), 75–78.

30. P. Seymour and P. N. Walton, "Detecting matroid minors", *J. London Math. Soc.* (2) **23** (1981), 193–203.

31. P. Seymour, "Nowhere-zero 6-flows", *J. Combinatorial Theory, Ser. B,* **30** (1981), 130–135.

32. P. Seymour, "Even circuits in planar graphs", *J. Combinatorial Theory, Ser. B,* **31** (1981), 327–338.

33. P. Seymour, "On minors of non-binary matroids", *Combinatorica* **1** (1981), 387–394.

34. J. Rosenblatt and P. Seymour, "The structure of homometric sets", *SIAM J. Alg. Disc. Meth.* **3** (1982), 343–350.

35. P. Seymour, "On the points-lines-planes conjecture", *J. Combinatorial Theory, Ser. B,* **33** (1982), 17–26.

36. P. Seymour, "Packing nearly-disjoint sets", *Combinatorica* **2** (1982), 91–97.

37. P. Seymour, "Applications of the regular matroid decomposition", *Proc. Colloq. Math. Soc. János Bolyai* **40**, Szeged, Hungary (1982), 345–357.

38. N. Robertson and P. Seymour, "Graph minors. I. Excluding a forest", *J. Combinatorial Theory, Ser. B,* **35** (1983), 39–61.

39. P. Seymouri and R. W. Weaver, "A generalization of chordal graphs", *J. Graph Theory,* **8** (1984), 241–251.

40. P. Seymour and T. Zaslavsky, "Averaging sets : a generalization of mean values and spherical designs", *Advances in Math.* **52** (1984), 213–240.

41. N. Robertson and P. Seymour, "Graph minors. III. Planar tree-width", *J. Combinatorial Theory, Ser. B,* **36** (1984), 49–64.

42. N. Robertson and P. Seymour, "Graph width and well-quasi-ordering – a survey", *Progress in Graph Theory* (eds. J. A. Bondy and U. S. R. Murty), *Academic Press,* 1984, 399–406.

43. T. Asano, T. Nishizeki and P. Seymour, "A note on non-graphic 3-connected matroids", *J. Combinatorial Theory, Ser. B,* **37** (1984), 290–293.

44. N. Robertson and P. Seymour, "Generalizing Kuratowski's theorem", *Congressus Numerantium* **45** (1984), 129–138.

45. N. Robertson and P. Seymour, "Some new results on the well-quasi-ordering of graphs", *Orders: Description and Roles* (Proc. Lyon Conf., 1982) *Annals of Discrete Math.* **23** (1984), 343-354, Elsevier Science Publishers B.V. (North-Holland).

46. N. Robertson and P. Seymour, "Disjoint paths – a survey", *SIAM J. Alg. Disc. Meth.* **6** (1985), 300–305.
